

PHILANTHROPY BY DESIGN: A **GREEN** RENAISSANCE

In this season of renewal and rebirth, the timing could not be more appropriate to tell you the exciting news at Philanthropy by Design.

* With great pride, we announce the launch of our new web site, www.pbd.org. As our dedicated group of incredible volunteers transforms non-profit environments, we are embarking with a renewed presentation of our decades-long efforts. We hope the compelling visuals, project highlights and green story entice you to become involved with PBD.

*In line with our mission of creative reuse, a new dedicated **GreenTeam** now embraces our commitment to green practices and sustainability offering resource information and advice. By visiting our web site home page, you will find "**G-Spots**" with links to relevant sources and the forthcoming "**GreenZine**" and "**Ask Pea/Boh/Dee**" - answers to your green questions.

*Do you want an outlet for your creativity? Do you have product that needs a good home and can be repurposed? Let us know how your talent and services could make a difference with one of our projects. PBD is collaborating with "**Green & Bold**" on renovations to the housing and landscaping for St. Vincent's School for Boys in San Rafael and several other projects that PBD is working on.

* Our "**Have-A-Heart**" fundraiser returns later this year. Stay tuned for details!

*Finally – did you know we are now neighbors? PBD resides at the San Francisco Design Center, at Showplace Suite M41A. **We are in great company!**
